## MESSAGE

It is a matter of honour and pleasure for me to write this message to be included in the souvenir/Proceedings being brought on the occasion of the 2<sup>nd</sup> International conference on an important topic **"Sources on Planet Energy, Environmental & Disaster Science: Challenges and Strategies (SPEEDS-2015)"** on 21<sup>st</sup> and 22<sup>nd</sup> Nov., 2015.

I am also very happy to know that the SMS, Lucknow has been recently felicitated as an outstanding Engineering Institute (North) by ET Now. I am glad that **"CV Raman Centre for Research & Innovation"** at SMS Lucknow has been focusing on research in areas such as Sustainable energy, Carbon foot prints, Global warming and Climate change.

I am pleased to note about the activities like conference being undertaken by the SMS School of Management Sciences, Lucknow, one of the leading institutes. They deserve appreciation for their efforts to remain up-to-date with the state-of-the-art of the subject. Such activities are the via media for faculty to explore possibilities of collaboration for research and innovation with the experts of the subject on the one hand and a chance for students to learn intricacies and nuances of the subject from eminent personalities. Thus, they help improve the teaching and learning process. I am sure, the conference will be useful for those concerned with sustainability.

While complimenting the management and faculty of SMS, Lucknow, I wish them success in their endeavours.

(Prof. Vinay Kumar Pathak)  
Vice Chancellor
